PEEPING

I'm going to start out by saying that the guy who just moved in across the hall from me is absolutely gorgeous. The first time we met, he was bare chested and glistening with sweat as he was moving in. I was so enthralled that I couldn't even speak to him when he flashed me with those bright green eyes and instead just closed the door in his face, only to continue to watch him through the peephole on the door.

Now, I'll be honest, I've never really had that much confidence in myself. I'm relatively short, with thick brown hair that can be either curly or straight depending on how I do it. I do have breasts that stick out far from my chest, though so often, they seem to be what all the guys I've been with were looking at. And here I was, ogling this new guy in exactly the same way.

I'm not proud of it by any stretch of the imagination, but there was something about him that just kept drawing my attention. As the days and weeks passed, I realized that he rarely wore a shirt unless he had to, and when he did, he typically wore them so tight that it was as if he wasn't wearing one. It almost seemed like a trap, a trap set to keep me interested and watching. Yet, for all that time, I also did everything I could to avoid actually speaking with him.

Then, one day last week, he pulled up just as I was getting home with groceries, and he didn't hesitate to offer to help. My denials and refusals were no good because it was obvious that I had more than I could carry. So, I let him take several of the bags (actually, he decided how much he could carry). I couldn't help but watch as those rippling muscles went to work, feeling my body heating up. We made our way into my apartment and set the groceries down on the counter and he asked if there was anything else I needed. You, I thought to myself. Except, it must have escaped my lips because he stood there in surprise for a moment before he pulled of his tight t-shirt, revealing the bulging muscles and pecs that had gotten my attention in the first place.

He teased me by bouncing his pecs and asked if that was the reason that I barely talked to him. I sheepishly nodded and he looked back at me, eyes meeting my own rather than my chest, as he told me that I was beautiful and deserved a good guy. With that, I melted. He continued his strip tease, pulling off his shorts with a flourish to reveal tight black cotton boxers and well-muscled legs before raising a finger to beckon me over to him.

I was transfixed, like I was under some sort of spell. His eyes remained locked on mine, even as I drifted towards him, and he deftly helped me out of my sweatshirt. His hands were gentle as he cupped my face and leaned in to kiss me. My bra came off without me realizing it, revealing my large breasts that his fingers seemed to trace without a second thought, sending rushing waves of pleasure through my body as he moved ever

Rainin' Romi --

I don't know how you do it, but you guys sure know how to pick 'em. Could there be a better choice than Romi Rain for a **Busty Beauties** cover. If anyone wants to venture a name out there, I'd debate you, and I'd still win! Because, as her cover says, 'She's not only beautiful but she has great big titties, too." But they're not too awfully big. And that's what makes her truly beautiful (besides that exotically gorgeous face). Sure there are gals with bigger boobies, but none that wear them as perfectly and gracefully as Romi. I know this sounds a bit like a love letter, and that's because it is!

– John F., Springfield, IL

closer to the nipples. He teased all around them, but, even while making out with me, seemed to be intentionally avoiding the sensitive area until he pulled away and left a trail of kisses down my chest to the nipples, teasing at them with his tongue and sucking on them with gentle passion.

He took me and led me towards the couch where he lay me down and placed his perfect form over mine, the entire time, keeping his mouth moving and exploring. By the time I was laying down, my pants and panties were off, and he was drifting past my bellybutton towards my clit that seemed to be thrusting out for him.

He managed to keep his eyes locked on mine, even as his tongue slid inside me, sending wave after wave of furious pleasure through me. I had to grab the couch and hold on to keep from screaming, though he seemed intent on drawing it out anyway. Minutes or days passed, I'm not sure, but he finally raised himself up and showed me an impressive, thick wad. All I could do was beg for it, and fortunately, he didn't make me wait long.

My first scream came with his deep thrust. It felt like he was digging deep, going into my chest and stomach, and yet still he pressed deeper. He took his time, as though he had nothing in the world that he wanted more than me. He made sure that each thrust got a scream, and that each scream was louder than the last until he finally forced a rush of pleasure from me. It was only then that his pace picked up and he took care of finishing himself deep inside. We lay there, him on top of me with gentle kisses for some time before he finally pulled himself up to leave, telling me to let him know whenever I need his manly services again. Given how close we live, I think it'll be pretty often.

THE COLLECTION

It was late into the night when I started down for the river. I wasn't sure what I was looking for, but just knew that I needed to get out and clear my head. My fiancé had just left with another guy, and I knew I couldn't be at home. The night was chilly, and I didn't expect to find anyone, which is probably made it easier than ever to find someone.

The river park is a little out of the way and dark that late into the night, and I tensed up when I saw a shadowy figure moving towards me on the lonely path. Slowly, the outlines started forming a slim figure with long, flowing hair. Eventually, the shadow crossed through the moonlight, revealing a young woman who seemed to be lost in her music. Yet, as she approached, she pulled out her earbuds and started talking about the late night.

I was surprised to find that I liked the company and we walked and talked for quite a while. She was struggling with her job and needed to get out and decompress. I told her about my fiancée and my own problems and within a few minutes, our hands found their ways to each other, and we started heading out of the park. Neither of us seemed to be taking any control, but we managed to end up outside my apartment, and on a whim, I invited her inside.

She accepted, and I took advantage of the light to get a better look as I made drinks. She was petite with small, perky breasts. Bright eyes looked around my apartment, a mess since I wasn't exactly expecting guests. As I returned with the drinks, she pulled me down next to her and found her way to my remote. To my surprise, the first thing she started looking for was my porn collection, finding it far faster than I was comfortable with, but then she seemed comfortable with the various movies I had. She turned one on and let her free hand drift down her pants to play with herself.

I didn't really know what to think; my fiancée never liked my porn, and now here was someone actively using it for themselves. After a couple of seconds, she gave me a weird look and asked if I was going to join her. I'm not one to turn down an invitation like that, so I reached into my pants and grabbed my thick cock, taking a chance and undoing my pants and pulled my dick out. She looked impressed and ran a finger over

After nodding her agreement, she pulled up off the couch and moved between my legs. With my porn on behind her, she went down, letting her tongue slide over the head. Once she had me, she slurped all the way down my throbbing meat.

the shaft, lingering on the head and slit, as she started to appraise me.

After nodding her agreement, she pulled up off the couch and moved between my legs. With my porn on behind her, she went down, letting her tongue slide over the head. Once she had me, she slurped all the way down my throbbing meat. The fact that I didn't explode right away can only be attributed to the way she teased and tantalized me, mouth all over my dick while simultaneously tugging at my balls. I let out a moan and threw my head back, grabbing the back of her hair and trying to guide her.

But she was the one in control. She masterfully maneuvered me, a free hand somehow reaching under my shirt and finding new parts of me to gently touch and send rushing sensations of pleasure through my body. She moved with the movie, seemingly off their moans and groans, raising me up and letting me back down almost as though she'd seen this porn before and knew what to expect.

Finally, she let me get close and I pulled my shirt up as I felt myself rushing to the end. I erupted like a fountain, and she took all of it, swallowing deeper and stronger now that I was spilling. She kept slurping, taking everything, she could and long after I thought I was done, she was still able to pull more. Each chug sent electrical pleasure racing through me, tearing me up and drawing out long, low moans. When she eventually let herself back up, I was completely spent and nearly ready to pass out on the couch, much like the guy on the TV. I was vaguely aware of her giving me a quick kiss before letting herself out, leaving me there passed out with heartbreak and pleasure on the couch. But when I woke, I discovered she left a single note on the table; one with her phone number on it and an invitation to call her the next time I'm feeling down. And each time I've used it has been a new and exciting adventure.

– Henry G., Topeka, KS

YOUR LITTLE SECRET

I feel that I need to express myself about a man I've liked for a year, yet will never have the guts to tell him. I'm 20 and some things don't come as easy as they did. My Humanities class helping me come out of my shell. The assignment I liked most this trimester is when our professor asked us to write a private exposé of our feelings.

He said we could choose any person and get as personal as we wanted. He suggested that it would help us reach deep feelings that we may not ever get an outlet for again. If you have some space on your pages, would you please publish this letter. Maybe he will read it and find out how I feel.

My dearest, I want to be your little secret I crave to be your secret, you are all I think about after the night we met. I remember the whole thing like it was yesterday, you were standing there staring me down with the look of lust in your eyes. I glare at you and I see a nice, handsome man in a midnight jacket; you have a wine glass in your hand, and you're laughing with your wife as you celebrate your birthday.

Now, I am a young woman, I have smooth, tan skin, long curly light brown hair that I wear way past my shoulders. My dress looks like it was painted on. As you look at me long, you notice my skinny eyebrows, my big, bright hazel eyes, my full red glossy lips. You start to look further down and you see my firm high breasts. I notice your wife is getting mad that you are looking at me for so long so I had to make her even more angry. I turn around so of both you can see my small thin waist and my firm round ass.

I can no longer tease anymore. I want to make my

move. I walk over to the window. I start to look to the mountains as the night sky just floats over the mountains with the stars bright as the sun. I put a cherry in my mouth and start to lick my lips teasing you. You see I'm looking at a door. I walk over to the door while still sucking on my cherry. Right before I put my first foot through the door, I look back to make sure your eyes are still on me.

Because you want me. If you didn't want me, you wouldn't be here with me. I quickly turn around so my

hard nipples can touch your shirt. As I start talking, I undo your shirt. You see I know and you know (now I'm kissing your lips) you want something new. No, you need something new. Now, I start to kiss your growing bulge and then I lay down on the bed as the silk sheets lay under my body. I push myself up with my arms, then I look at you and I motion for you to come closer as I lick my lips. You stand there looking interested, so I spread my legs open so you can see my pussy. As I rub, my wet pussy juices begin to drip down my legs and the sheets. You start to walk closer as you undo your clothes. By the time you are on top me, we are eye to eye – lips to lips – locked onto each other.

You start to push in and out as my moans get lost in this all. You start to lick my nipples and I put my hand on your head as you suck harder and harder. Soon you let go and look into my eyes. You kiss my lips and I start to close my eyes and moan as you pump in and out of me. Then we roll over and it's my turn to take control. I start grinding my hips. Then I start to move back and forth. I go faster then I start to moan and throw my head back as I am about to cum. I notice you are looking at me. You see the beauty, past our sex, you see what you have been missing. You've been missing sex that wasn't planned. Your wife will suck you for five minutes, lay down on her back for ten, then wait for you to cum. But with me it's different. I let you stay in me as long as you wish. I am something different. Something you can't get in your world.

So I get up and walk over to the window. I feel you looking, staring at me, exploring my naked body. I start to put my dress on as you start to dress as well. Even though I can't see you, I hear you. You walk over behind me, grab my arm and whisper into my ear:

"Will I see you again?"

Quietly, I turn around and put a card into your suit pocket. We hear the door knock. Turning your head to the door, you see a hand push the door open wider. You know that hand anywhere, it's your wife's hand. You start to think of what lie you're going to tell her. Did you just wash away your marriage away with this? As soon as you open you mouth to say a word, she says: "Darling, I've been looking for you all night. Have you been in here?"

You can't understand why she isn't shocked about seeing me at your side. Soon she walks over and places her hand on your face and kisses your lips as she looks into your eyes. "Baby, you look like you've just seen a ghost. What have you been doing in here, and why is it so cold in here?" You turn around and see the curtains blowing in the wind.

You look out the window and stare at the night. You and your wife start to head towards the doors. You grasp your wife's hand and you walk to the car. You hold the door for her and try to act as if nothing happened. Just before you get into your car, you go into your pocket to find my card so you can call me but all my card reads is:

"Happy Birthday."

Now, it's one year later and that night is still fresh in my mind. As you get older, memories mean so much more and since you cannot change them, you relive them. So here's hoping you find this letter and remember that night that seems like so long ago.

Candy Manson

Candy Manson hates chores just as much as the rest of us, but she knows what to do to make the time fly. She wants a little reward for cleaning the car in the hot sun. All she does is wear a bikini under her shirt and then slowly removes that bothersome top. Once her man notices, she gets everything she asks for.

Why you don't have to be a dick to enjoy having one

The Art of Pampering Your Penis

Penis. Cock, dick, pecker, prick, tool, rod, shaft, wang, dong, hose, organ, meat, peeny, weenie, phallus… the list goes on and on. It has been said that there are more synonyms for "penis" than for any other word. But then, you have so much to choose from: anything that is either long, cylindrical or, better yet, both is a candidate for becoming one more dick definition.

The penis is at once the star performer in the center ring of sex and the subject of a multitude of derogatory terms, such as "He's a real prick" and "Don't be a dickhead." So what are the real facts and fictions of the thing, or the ding-a-ling, or the you-know-what- I-mean?

Let's start with the "I am Joe's Dick" approach. The penis is a hydraulic device, functioning like a pump, a hose, a piston or a firecracker, thereby giving you four more synonyms for the thing. Frankly, the facts behind the physiology of the penis are less important than what it really does—get big, hard, erect, and follow through with some heavy sex action. So much for the medical approach, thank you all for coming; better yet, read the article and then come, and take careful notes.

The Size Myth

Did I say get "big" in connection with a hard-on? Ah, BIG, the magic word among the mythmakers and shakers. The size myth is the real hang-up in the whole library of misinformation about man's best friend, and I don't mean his dog.

Why doesn't the size of your cock make that much difference? The best reason is that the most sensitive and responsive parts of the pussy are in the outer three to four inches of tissue. Just muster a throbbing hard-on and make that pussy feel good.

Size has more to do with social attitude than sexual performance. If a little bit is good, a lot is better, right? Many big studs are really hung, but does that make them better in bed? Not necessarily. Granted, if you take a chick home, decide to spend the night, and undress to reveal a stiff twelve-inch surprise between your legs, the effect may be more dazzling than if you present her with a limp artifact that resembles an overcooked frankfurter. But it's what you do with what you've got that's really important.

And no matter how many devices or pills you see advertised, or no matter how many you send away for, nothing will make it bigger than nature intended. Your mind may tell you that some mechanical gadget is making it bigger, but that's all. Actually, some devices that make these claims could be harmful if used improperly. Better a small, efficient cock than a useless one of any size.

The size of the penis in its flaccid state has little to do with its size when it's erect and ready for work. You may have noticed how the penis is smaller when it's cold, such as after a quick dip in a roman tic waterfall or the Oregon surf In November. That's because the body is no dummy; it is protecting the delicate tissues and hydraulics of the dick. When you get dried off and warmed up, your dick will get larger. The same sort of action takes place as it becomes erect, so just because it dangles there all day at a soft three or four inches doesn't mean it won't be a handily respectable and efficient seven or eight when the right time arrives.

If size does have anything at all to do with it, thickness is the governing factor because the friction against the most sensitive areas of the cunt will be increased.

If you are one of those dude who has

Size has more to do with social attitude than sexual performance. If a little bit is good, a lot is better, right? Many big studs are really hung, but does that make them better in bed? Not necessarily.

BLAIR-NTS-09

checked your cock's length against a ruler or tape measure (who hasn't?) and found that it isn't as big as you wish it were, try measuring its circumference. It might be five-and-a-half inches long and almost as fat. And chicks love fat cocks as well as long ones—especially those who like to suck cock! If you are still really hung up on how big your dick is, you've probably got more than just a size problem when it comes to your sexuality. And that's about the size of it.

Pampering Your Prick

So much for psychics and biology, but how about care and maintenance? That's a simple matter: treat it with the love and affection you have for your favorite pussy and keep it clean at all times, especially after sex.

If you have a healthy, loving attitude toward your cock and your sexuality, it comes with a lifetime warranty. It will continue to function into your twilight years if you really want it to, although it may not be quite the same after 80 years as it was at 18.

There are some obstacles on the penis pathway, however. The real roadblock is that dreaded word, impotence. Let's call it "non-performance" since that makes it seem less like a plague. There are certain physical reasons for permanent impotence, but those questions and answers should be determined by you and your doctor. Some medical conditions, such as diabetes, and medications for depression or high blood pressure may render you physically impotent temporarily.

Alcohol is probably the most common factor for the inability to get it up. Fortunately, most of these factors disappear in a short time, and a hard-on will jerk up again.

No Show

The common and universal cause of temporary non-performance is psychological—universal because it happens to everybody. It's happened to me, and I'll bet you twenty-to-one that it's happened to you too. It happens to every man at one time or another and anybody who claims it doesn't isn't lucky, he's a liar or an asshole, or both. The one-in-several-thousand guys who has never been affected, and who goes around bragging about it, possibly cares more about getting it up and getting it off than about experiencing a mutually satisfying relationship.

The first, last, best and only advice about the temporary condition of the limp dick is NOT TO WORRY ABOUT IT. Ironically, the best way to prolong the situation is to worry about it. This self-fulfilling prophecy

is one of the mind's dirtiest tricks.

If you are aching to get that juicy piece of ass in the sack and fuck her like she's never been fucked before, let it happen naturally. If your horny mind gets worried about your being cast as the greatest lover since Casanova, and says to the shadowy subconscious, "We'll show that dick, won't we?" then the show could be over before it starts.

If it happens, welcome to the universal club. But relax; eat her pussy, give her a back rub, show her how you like to be kissed, or go to sleep. As soon as those silly anxieties go away, voila! Your dick will be eager for action. And if the special person in question is turned off by your original case of non-performance, she may not be so special after all. It takes two to make sex satisfying.

Another nasty frustration is almost the physical opposite from non-performance ... premature ejaculation. Strangely enough, this can be caused by the same sort of anxieties that won't let you get it up in the first place. And it carries the same kind of self-fulfilling prophecy with it too. The more you worry, the faster you shoot your load. Use the same tactics used for non-performance, all of them centered on taking your mind off the problem. Also try:

- *Wait for Round 2. It will quite likely be better the second time around because you will be more relaxed, and your sex organ is less inclined to pump than to just enjoy the feeling. That's one way to come a little slower the first time around with her, too, if the anxiety persists.*
- If you thought you got it off too fast with her before, and you just know you're going to hit the sack again tonight, try jerking off beforehand.
- *If you are spending a long weekend, or a long or short relationship or marriage of any kind, and a jerking off isn't practical, use the last resort of human nature:*
- Be honest. If you can't be honest with

Another nasty frustration is almost the physical opposite from non-performance ... premature ejaculation. Strangely enough, this can be caused by the same sort of anxieties that won't let you get it up in the first place

Sexually transmitted diseases cannot be treated or cured with anything in the bathroom medicine cabinet either, unless you have a permanent supply of antibiotics in there. And even that won't cure every type.

her, be honest with yourself and take your time with foreplay. Get her to play with it for you, cuddle, and laugh or make jokes. Just don't make excuses and you'll both be surprised how long you might enjoy sex next time. Try it, you'll both like it!

"Social" Diseases

There are some other conditions that require more than a change in attitude to cure, namely the growing family of social diseases. Sexually transmitted diseases (STDs) are neither to be laughed at nor ignored. While they are not exactly status symbols, they are nothing to be ashamed of. If you contract one of the many STDs, the only thing to be ashamed of is not having it taken care of immediately. An STD is a lot like the overdue balance on your credit card: ignoring it won't make it go away; it can only get worse.

An STD is not some Sodom and Gomorrah kind of curse sent to punish you for fucking around, no matter what some might say. Sexually transmitted diseases cannot be treated or cured with anything in the bathroom medicine cabinet either, unless you have a permanent supply of antibiotics in there. And even that won't cure every type. Your doctor or the local health departments are the only places you can get fixed up. (The only reason imaginable for not seeing your doctor is if you caught it from his wife. In that case, see another doctor and have him tell your doctor about it.)

Another problem that might be mistaken for a form of STD is venereal warts on the penis. The "herpes" warts are caused by a virus, as are syphilis and gonorrhea, but they are not what are commonly known and associated as an STD. They are curable and nothing to worry about if you get treatment. They may even come and go without treatment, but if they reappear regularly they should be checked by your doctor or a specialist in dermatology.

Small sores or wart-like growths will appear on the penis as a result of the increasingly common trichomoniasis, or trich, as it's known in some circles. Like any other STD or affliction, it must be treated. But it's not enough that you get treatment but your partner and anybody else who may have joined the party at one recent time or another must get treated too.

Aside from becoming a total celibate or a hermit, the best preventative medicine against STDs is a condom. And there is nothing phobic or hokey about wanting to have a clean cock or cunt both before and after sex. That is especially true if you are not circumcised.

Circumcised? What about that?

The Unkind Cut?

Circumcision has no effect on sexual performance, got that? The foreskin is usually pulled back during sex anyway. Some women may even prefer an uncircumcised cock for the extra variety of feelings to fold and unfold. Personally I don't have any choice in this matter since, like most modern American guys, the job was done on me before I had anything to say about it.

If you aren't circumcised, you might experience extra sensations in the foreskin by pulling it back for sex, masturbating, or even washing. If you're circumcised, all you can do is ponder the religious and mystical reasons for this ancient and accepted rite of passage.

Just because even the most primitive cultures practice circumcision as a ritual of manhood doesn't mean you have to have it done. And there is no more health hazard in a clean, intact foreskin than there is in a clean armpit or elbow.

The Wrap Up

Let's see now, what have we missed? Oh yes, the other basic mechanical function of the penis: the urinary one. What can I say that hasn't already been said? You certainly know how it works. I assume you've been housebroken and/or toilet-trained. But if not, need I say it again? See a doctor.

Last but not least, men of a certain age must be aware of any changes in their urinary habits, which could be a sign of an enlarged prostate (or worse). Be sure to get a prostate exam annually, at the very least.

There you have it: Take care of your penis and it will reward you and your partner with years of satisfying pleasure.

Candace Von

Candace admits she's been quite the naughty girl lately, going out every night in some very risqué outfits and staying out well past midnight. It begins to beg questions, questions best answered with a sloppy top, and a weekend night spent in. That's perfect for some long term fucking, and maybe a load busting all over her tits.

Angel Vain

If the words “busty milf” don’t bring this lusty Angel to mind, then you’ve got some learning to do. She loves to spend her time rolling around in whatever horizontal position she finds herself in. If she had her way, she’d do nothing but find the best way to go from missionary, to doggy, to cowgirl, and back again.

I'VE GOT TWO BIG GIFTS AND THEY'RE ALL FOR YOU 888-599-2264 MUST BE 18 TO CALL
